Oyen Agricultural Fair, on
Monday and Tuesday, August
7th and 8th.

Rev. S. D. Webster, who has
been appointed to take charge
of the Oyen Mission, has sent
word that he will arrive in town
this week. He will preach on
Sunday. Mr. Webster comes
from Sedgwick, Alta., where he
has just completed a three
years pastorate.

A dance will be given in the
Wenger Heights school house
on Friday, June 30th. Every-
body welcome.

The swimming pool (about a
mile east of town) is becoming
a popular place now. Nearly
every evening car owners are
seen driving out there. "Come
on in, the water's fine!" How
about getting up some aquatic
sports?

Ten to Mr. and Mrs. T. W.
Johnston, on Friday, June
16th, a daughter.

The McCormack boys of
Reynville, were visited by a
number of their Oyen friends
last Sunday. The party which
included Mrs. Loucks, Miss Eva
Peterson, Miss Ruby Scott and
the Messrs. M. M. McDonald, S.
A. Miller, Alex. Corless, S. B.
Lawrence, Joe Murray, F. Web-
ster, C. L. Dunford and Dr. H.
C. Schwartzlander, left town at
an early hour. En route, Miss
Maie Kemphorne of Clemons
joined the party. In spite of the
recent heavy rains, the trails
were found to be pretty
fair and the mosquitoes mag-
nificent, did someone say? and
a very enjoyable day was spent.

Unlimited funds to loan on

Are you lucky? See if you
can win a Ford car by taking a

The next sewing meeting of
the Red Cross Sec'y will be
held at the residence of Mrs. G.
H. Scott, to-morrow evening,
June 22nd.

Dr. Luckner, Dentist, will be
in Oyen the next 14 days of
each month, Ceread 15th to 10th
inclusive.

School broke up last Friday
for the summer holidays.

J. A. McCall Esq., was a town
visitor today, en route for Em-
press where he will attend the
stampede.

Preparations are being made
by a number of the townspeople
to attend the stampede at Em-
press to-morrow. It is reported
that the Alberta ferry is now
working and the approaches
are in excellent condition.

W. A. Billantine returned to
the Bank of Toronto staff here,
yesterday. He has recently
been on the staff of the Bank of
Toronto at St. Catharines.

Ideal weather conditions pre-
vailed for Oyen's Patriotic
Sports Day, which was held last
Wednesday.

It was unfortunate that one
of the chief attractions, the
Band of the 175th. Battalion,
was not advertised, but the fact
that it was coming was not
known until the afternoon pre-
vious to Sports Day. Mr. H. S.
Higgins, who was largely in-
strumental in getting the band
here, has been promoted to a
lieutenancy in recognition of
his sterling services recruiting
for his battalion.

The crowd was more slow
than usual in coming to town,
but those who were early were
treated to several selections by
the band, whose playing was
greatly appreciated.

At about 1:30 a general move
was made to the sports ground,
where the crowd were entertain-
ed till evening.

The best dance that has ever
been given in Oyen, took place
in Mr. Peterson's new garage.
The building, which has just re-
cently been completed, was
given free of charge for the oc-
casion by Mr. Peterson, and
provided ample space for the
dancers being 60x10 feet.

Good finishes were witnessed
in the horse-racing events, which
resulted as follows:

Farmers Trot: Tony, Eric
Lindquist 1st, Bertha C. (Hanna
entry) 2nd.

Free for all: Tony, Eric Lind-
quist 1st, Bertha C. (Hanna en-
try) 2nd.

Running Race: Nettie H.
(Hanna entry) 1st, Slippery
and Spitfire share second prize
money.

Patriotic Sports Day

Continued from page one
Pony Race: Dan 1st, Dolly and Sandy divide second prize money.

Four cars were entered in the auto race; two cars racing at time on the track. A. A. Owens 1st, Dr. H. C. Swartzlander 2nd.

The baseball match between Oyen and Sibbald resulted in a win for Oyen by the score of 7 to 4. Oyen's old battery was split up in this game. Charlie Dalton pitching for Sibbald while Joe Quinn caught for Oyen.

THE PLAYERS

Sibbald: Charlie Dalton did not show his customary class, but he was unfortunate to have three runs scored against him in his first innings. Errors by the third baseman were responsible for the disaster.

Stan Cunningham, who occupied the 2nd sack, played a great game and made one or two timely hits. Dalton and Cunningham were the pick of the Sibbald team.

Oyen: Klinefelter and Quinn worked nicely together, and both men registered some nice hits. Quinn walloped out a terrific drive for a home run. In spite of his absence from the diamond for practically a season, Quinn has lost none of his old time humor, and his remarks behind the batter's box are full of amusement.

Geo. Desso on first played a sterling game and has improved considerably as a batter.

"Ty Cobb" (Charbonneau) played a good game on second and showed up well at bat.

Century on third showed lots of "pep" and was a useful man on the team.

The rest of the team all played nice ball.

The football game between Oyen and Cereal resulted in a win for the visiting team by the score of 1-0.

The sum of \$320.00 was realized for the Patriotic Fund for this day's operations. Of this amount about \$175.00 was made by the sale of ribbon badges, which was undertaken by Mrs. Loucks, the misses Eva Peterson, Ruby Scott, Maudie Kempthorne, Marjorie Alexander, Edna Crockett, Tessie Taylor, Emily Robinson and the misses G. Whitlock, D. Irving and S.B. Lawrence.

To these ladies and gentlemen the executive extend their very hearty thanks for their splendid work.

Born—To Mr. and Mrs. T. C. Hesse, of Orange Grove, Oregon, at 6 a.m. on the 4th day of the 6th. month, a nine pounds daughter.

In Lighter Vein

Note the sixes in the above birth announcement. Things are evidently not at sixes and sevens in the Hesse family.

A correspondence writes us as follows: "If the butcher's dog is still missing, how would it be if you ran the following ad: 'Consumers of sausage are advised to look for a dog tag. Finder should report to The Meat Market and receive suitable reward.' How would a yard of winners do as the reward?"

We agree that Hell is paved with good intentions, but is populated largely with small town wags who refer to the home paper as "the weekly gimlet." Saskatoon Star, Our Province Col.

The attention of Peter Steffen is especially called to the above item.

Mistress: "My last maid was too familiar with the policeman. I hope I can trust you?"
New Maid: "Oh, yes, madam. I can't bear 'em. I've been brought up to hate the very sight of 'em. Pa's a burler."

"She says I am dull."
"You should crack a few jokes occasionally. Ask her to marry you, or something like that."

When asked by his teacher to name the largest diamond, Bobby promptly replied "The ace."

If the girl's skirts grow any shorter, we cave-men will regulate by wearing collarless shirts and open-wear suspenders.

Have a heart, censor!

When asked by the News, how it was that his horse could win drawing his somewhat considerable weight, Mr. Linquist laconically replied "Because it's a good horse, my boy."

Ain't it the truth?

Auto Notes

Stuart B. Lawrence, the latest purchaser of a Ford car, promises to become with a little practice "The Barney Oldfield" of this district. The present title, is of course held by Mr. A. Owens. Mr. Lawrence finds that a Ford does not accomplish the work of a Massey-Harris plough, however, in heavy land.

S. A. Miller finds a stout harrow a very useful bit of equipment to carry on a trip. "Ain't it the truth," says our future "Barney Oldfield."

On the other mitt, Alex Corless finds a spool of copper wire and a coil of stove pipe wire two essentials in a Ford equipment. And what Alex does not know about his "boat" is not worth knowing.

Verne the word "boat" adversely in the foregoing item. Alex Forded the Red Deer twice in his Ford. We were with him when he did it. So we know.

"Judas Priest," says the Doc, "It's all right for you guys to laugh; but a blow-out is no laughing matter." However, being a genial soul, he did not worry any. He just hopped around and in ten minutes had another tire on.

To Relieve Congestion
Two unusual measures have been under consideration by the Legislature of Massachusetts. One provides for an appropriation for houseboats or small houses with plots of ground for mechanics, laborers and other persons in the suburbs of cities and towns. The other bill authorizes any city to acquire land for the purpose of teaching agriculture to its inhabitants, including school children, useful in family groups.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Ointment very useful in camp. When the feet are wet and cold it is well to rub them freely with the Ointment and the result will be the prevention of pain in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

The old lady from the country and her small son were driving to town when a heavy automobile bore down upon them. The horse was badly frightened and began to prance, when the old lady leaped down and with a will to the throat screaming at the top of her voice, "That's all right," said the boy, who remained composedly in the carriage. "I can manage the horse. You just lead Mother back."

"There is this fact," said Jones, after a long argument on the question of a man's superiority over woman—"I don't think there is one girl in a hundred that does thing even to man which a woman cannot have."

Wife: "Never! I deny it! What do you mean?" "A wife!"

The Sphere of Woman

What the Women Workers After the War is Over.
"What can be done just now, I fear and hope I am wrong in fearing, is better than nothing. In this tremendous war, say Sir Rider Haggard."

"The effect on the belligerent nations will be deep and revolutionary. It is the most startling thing with which we deal ourselves face to face. Hundreds of thousands of women now because of the war have been shifted, and a multitude of homes they have emerged and now provide for their full share in the world's work and incidentally doing it exceedingly well, when their lack of previous experience is taken into consideration."

"Will they be content to lapse again into an aimless security with nothing in front of them save, perhaps, love, marriage, or that comfort with social conditions which is likely to be in their own ruin?"

"I think not."

"That means that they will do a share of the world's work, disengage themselves from the old life, and that means that a certain number of men—a large number, for it will include the multitude who will be released—will have to turn aside from their old occupations and take up the burden of accomplishing their share towards the guidance of this new life."

"Again, it means that women will be well able to take up the burden of accomplishing their share towards the guidance of this new life."

"I pray heaven that they may use their freed hands and feet aright and think that will be the case, because while women work by instinct rather than by reason in eight times out of ten women's instinct takes her to re-construct the world than to re-construct the old."

"Which our reason guides her. It is the fact that in England the high wages which will be paid to women will be paid to men."

"The only real relief from this trouble, and it may mean great trouble. The only real relief from this trouble, and it may mean great trouble. The only real relief from this trouble, and it may mean great trouble."

Pills for Nervous Troubles.—The centre of the trouble is the stomach, and when the stomach is weak, the nerves are affected. It is the first consideration is to restore the stomach to proper action. Dr. Williams' Pink Pills for Pale People can do this.

Horses for Military Service
Sixty Thousand Already Bought in Canada by Allied Governments.

Advices from the War Office indicate that a very considerable number of horses for military purposes will be required from Canada this summer.

Buying on a somewhat extensive scale has been going on for some time in Montreal. About sixty thousand horses have been purchased in Canada for war purposes by the allied governments since the outbreak of the war, while more than six hundred thousand have been bought in the United States. Probably another twenty thousand will be purchased in the United States.

Lieut.-Col. Dr. Warnock, M. P., has been ordered to see to it that the horses in Montreal be kept in the best condition for export and inspection.

Ask for Minard's and take no other.

Holland and the War.
Sir Edward Russell, one of the best informed of British journalists, had this to say in a recent issue of the Liverpool Daily Post—"Some six years ago when the present writer of the war between England and Germany was being inevitable. If England was defeated, one heard on all sides, then Holland's only resource against annexation by Germany would be the assistance of the United States."

But now, after six years, the feeling has never changed during the present war, though Germany has lavished money on her army and navy. It can be said with emphasis that never before has our foreign office been in such close relation to the Dutch Government.

But the close relation of the summer some interesting developments are quite possible in that land of sturdy men, hard thinkers and good lovers.—Edmonton Journal.

Farm Lands Will Increase in Value.
The pioneer spirit of farming is disappearing. Another generation will use the last of the free land snatched from the wilderness. The result will find land values increased during the war in proportion to the death of the land and the increase of demand. Life is slowly coming into use. Wild land is being gradually absorbed. Time will bring about the sale of the farms to the city and the market conditions of the locality. We shall hear less of big money crops. We shall find more solid farming values and real contentment.

He-I wonder why three-fourths of the typists in business offices are women? She-I think it is because men like to feel that there is at least one class of women whom they can dictate to.

"It's a dreadful thing. Won't you say and dine with us?"
"Really, thanks most ardently, but I'm not quite so bad as all that."

The Spirit of Contentment

A Canadian officer formerly in a Canadian Government office, writes: "I have stood on the ground at the back of our trench, and an avial sight met my eye, but a sight so unfortunate, I have looked upon ever since. It was a sight of a soldier's life. The Hun was practically blown out of their position; the trenches had been smashed in; and one could hardly recognize that they had been there. The Hun was blown in, and there were signs that they had a good number of dead. The Hun was blown in, and there were signs that they had a good number of dead."

LITTLE WORRIES
IN THE HOME

It is These That Bring Wrinkles And Make Women Look Prematurely Old

Almost every woman at the head of a home meets daily many little worries that are not great troubles. They may be so small to notice an hour afterwards, but it is these small, constant little worries that effect the complexion and make women look prematurely old.

It is these that bring wrinkles and make women look prematurely old. It is these that bring wrinkles and make women look prematurely old.

Digging Post Holes
A farmer from Wyoming asks for information as to the most rapid and economical method of setting fence posts. An expert in farm mechanics answers:

Driving posts is not to be recommended unless only a temporary fence is desired or sharp angled posts are used. If the posts are of a wide large proportion will crack under the blow of the sledges.

The spade as an implement is usually not efficient, for only a shallow hole can be dug with it, and a post, to be set in the ground, must be driven two and a half feet into the ground.

With a regular post-hole digger, a hole may be easily and quickly made as deep as desired.

There are three great types of diggers in common use: the plain flat shovel, the spade, and the post-hole digger. The spade is the best for the job. It is the best for the job. It is the best for the job.

War Veterans and Politics
Canada is expected confidently that with the return of peace veterans will control the politics, as veterans controlled the politics of the United States for a generation following the civil war, and in rather rejoicing in the prospect. It is coming to be the conviction in the Dominion that those who offered their services in the nation in time of war will be most capable of administering it in time of peace. The thought is a common one, to say the least, and we believe that the hope behind it will not be disappointed.—Christian Science Monitor.

Book Learning is Not All
It is a curious commentary on the quality of human understanding that so many writers should have had so much emphasis upon the fact that Shakespeare's only "education" was secured within the walls of the Stratford grammar school. What a wonder it is that there is in the superstition that a knowledge of books is a knowledge of nature and mankind! How much more nonsense there is in the superstition that knowledge of nature and mankind cannot be secured except through the perusal of many books.—Outlook, New York.

A movement is on foot in Great Britain to do away with the golf links throughout the country. It is the war terminators. This is necessary, say the advocates, in order to economize horse and man. In some instances golf links are being planted with vegetables.

General Disinfectant
The New Zealanders in camp at Harewood, England, and presented a number of models and great enthusiasm. In an inspiring speech to the men the General said they had a lot more fighting to go through. The world had heard of their glorious work. They had never failed in the occasion. Only on two occasions had he heard of grumbling. The first time was from the men who were not in the first line in the last night at Gallipoli, and the second time was in the evacuation, when men complained that they were not the last to leave. The King had been told of this latter complaint and he was proud of it.
